

Speaker 1: All right, Eddie. So you were just telling me that you're doing well with your treatment. Tell me a little bit about what you came in for and what that condition was keeping you from doing that you wanted to be able to do.

Eddie: Well, I've been suffering from neuropathy for several years. It progressively was getting worse and it had gotten to the point where I was unable to sleep at night. I'd just lay awake all night because my feet burned, and stings, and hurt so much that I just couldn't sleep. So that's what led me to coming here. I saw the ad in the paper and I said well, this is worth a try. The medicines I'm taking, they help, but they weren't working. So that brought me here.

Speaker 1: And what changes have you seen so far?

Eddie: Well, I noticed a little bit of difference after the first treatment. This is my fourth treatment and I'm now sleeping most of the night, the pain has subsided quite a bit. So I feel like I've hit on something here and I'm on the road to helping me lead a more productive life really, because it had stymied in being able to do a whole lot of things. So I'm feeling better, my legs are better, and that's more than what I could ask for, and more than what I hoped for, really.

Speaker 1: That's awesome. And you're just getting started.

Eddie: Just getting started, yeah.

Speaker 1: And what advice would you give to somebody else who was in your same shoes?

Eddie: I think my advice would be give it a try. After the biopsies that they take come back, you'll know the condition of the [inaudible] nerve, and whether they feel like ... And you all were very upfront with me, telling me what you thought about the condition of my nerves and how the treatment could help. And you didn't set any Atlantis expectations, you just were very friendly and nice, and put my wellbeing at the forefront, and I appreciated that.

Speaker 1: Well, I thank you for saying that Eddie, and I look forward to your ... Was it your fifth treatment today?

Eddie: Fourth today.

Speaker 1: Fourth today. Awesome. So you only had three treatments and you're already doing great.

Eddie: Right, doing much better.

Speaker 1: Well, we look forward to getting you even more results as we continue.

Eddie: Thank you.
