00:00:01 Speaker 1

Hi good morning we are here today with Mr. and Mrs. Hoffler.

00:00:06 Speaker 1

Mr. Hoffler is a patient of Advance Regenerative Care. He found us by attending one of our many seminars that we do throughout the cities of North Carolina, educating the communities regenerative medicine. Good morning, Mr. Hoffler and Mrs. Hoffler.

00:00:28 Mr. Hoffler & Mrs. Hoffler

Good morning.

00:00:29 Speaker 1

If you will share with us before your regenerative therapy, what was your quality of life? What brought you here and what are some of the things that you could not do or were limited maybe in doing?

00:00:47 Mr. Hoffler

I had numbness in both feet. Total numbness for about four years and I was unable to go to job sites, logging jobsites, and walk on the rough terrain and the mats. After having this done I'm more mobile I've got my 100% feeling in my right foot.

00:01:08 Mr. Hoffler

And probably 60 to 70% feeling in my left foot. It is getting a little better all of the time.

00:01:16 Speaker 1

Wow. Now so no more getting out of work or using that excuse, but I know you wouldn't anyway, so so as far as pain, you indicated earlier that you didn't really have any pain that your main concern was numbness.

00:01:34 Mr. Hoffler

Yeah

00:01:35 Speaker 1

And then and when was it that you had the injections? How many weeks is it now?

00:01:40 Mr. Hoffler

I think it was April the 11th.

00:01:43 Speaker 1

OK, and so now it's just the end of May, so in less than two months time you have 100% feeling back in 1 foot in and about 70%. Is that what I'm

00:01:55 Mr. Hoffler

Yeah.

OK very good. That's great, OK. So would you recommend Advanced Regenerative Care?

00:02:07 Mr. Hoffler

For the results I've got, I would.

00:02:09 Speaker 1

OK, all right and have you have you recommended it to your friends and family?

00:02:14 Mr. Hoffler

I have mentioned it to several people.

00:02:17 Speaker 1

Well, Mr. Hoffler, I do thank you for sharing your story and what you've been through and it's been a pleasure seeing you in our office. I wish you years of continued health and happiness. I know that now just remember the regeneration will continue for quite some time so I hope the next time we talk you've got 100% in both feet.

00:02:41 Mr. Hoffler

Good deal, me too.

00:02:41 Speaker 1

Yes, alright thanks yeah thanks so much, appreciate you.
