Well, Miss Rosalie, they were just telling me how phenomenal you're doing with your treatment. Tell me a little bit about what you've been experiencing so far and actually why you even came into the office in the first place.

00:00:12 Rosalie

The reason I came in my friend was telling me about the program and I had a lot of problems with my legs. So, I said, sure, you know anything's worth a try.

00:00:26 Speaker 1

What was it keeping you from doing that you wanted to be able to do?

00:00:28 Rosalie

Rest real well at night time is when it really... when you get off your feet and lie down the pain is bad, so...

00:00:42 Dr. Ryan

Absolutely.

00:00:46 Rosalie

You twist and turn, you can't sleep and you lay and watch the clock. So after my first treatment after about, uh, I guess it's only been a week, right?

00:01:00 Speaker 1

That's amazing.

00:01:02 Rosalie

So now I'm able to go to sleep better because they don't hurt as bad. I can get a good nights rest.

00:01:13 Speaker 1

That's great.

00:01:13 Rosalie

Yes, that means a lot.

00:01:15 Speaker 1

And so you've had one treatment, and it's been one week.

00:01:17 Rosalie

Right.

00:01:18 Speaker 1

That's great, well, you have a long way to go, but the fact that you're making so much great progress we have great hope for you to make even more improvement.

00:01:29 Rosalie

I'm looking forward to it. Today will be my second treatment and I was amazed that after a few days after my first treatment my legs were better at night. That's when they're the worst is at night.

00:01:49 Speaker 1

Well, that's great. Well Rosalie, I'm so happy for you. I'm excited to get you out there and get you a second treatment.

00:01:54 Rosalie

Thank you, I am too.

00:01:55 Speaker 1

Well I appreciate you taking the time.
